We hire **motivated PhD students** and **master students** in order to conduct **fundamental research**. New group members will be embedded into an **international team** (we collaborate with Rutgers University, Princeton University, as well as the RCPE GmbH).

We offer positions in the following areas:

- **Granular Flows**
- **Multiphase Flows**
- **Continuous Crystallization**
- **Bioreactor Simulation**

Expected background of applicants: process engineering, **mechanical, geo-mechanical, chemical, or petroleum engineering**, as well as **applied physics or mathematics**.

Send your contact information to Prof. Johannes Khinast (khinast@TUGraz.at, 0043 316 873 30403). In case you apply for a PhD position, include a curriculum vitae and a motivation letter.
